

GST-Compliant Billing Software

Business Domain: With the introduction of new Goods & Services Tax in India, there were plenty of GST Billing software's developed. These software's were a complete package of Billing, Inventory & Taxation which makes them complicated to use. Our goal was to develop a simple and user-friendly billing software which any small or medium business owner can use without the usage training.

Problem Definition:

- Many businesses which are at the starting phase of their business do not need the complex functionalities in the billing software.
- Our software was developed in such a way that we can install it on client's system as per their requirement. For example, few people who did not need Inventory module, we could give only billing module to them and so on.
- At the end of the month, client could download the monthly file and directly upload on Government's GST portal. This eliminates the cost of CA on monthly basis.

Problem Statement:

- To simplify the billing process and generate electronic bills in fixed format prescribed by Government of India. Also ease the business process by handling Inventory & Reporting.

Proposed Solution:

As per the Businessmen's needs and as mentioned in the problem statement, we have proposed and developed following solution to their problems. It's Simple, Efficient and Affordable GST Billing Software. Specially designed for an Indian market.

- **Point of Sale module:**

One single screen to sell all your products. Very easy and fast billing to get GST-Compliant Sales Invoices.

- **Purchase Invoices**

Load your purchases in our Tech-Invoice software and keep track of the Business as well as Inventory.

- **Inventory Management**

While you keep on Billing and Purchasing for your store, we simultaneously keep track of your Inventory.

- **Smart Reports**

Tech-Invoice allows you to see Sales, Purchase and Inventory Reports with useful filters and sorting options.

- **Interstate, Intrastate Billing**

Don't worry about the Interstate or Intrastate Billing as we take care about the CGST's, SGST's and IGST's.

- **Auto-calculation of GST**

With built in tax slabs, you only need to select the right GST rate for your products and calculations is automatic.

- **Credit Ledgers**

Our Credit Ledger Module helps you to Track all the Transactions by Customers and Check their Balance.

- **Customer Relationship Module (CRM)**

Managing all the Customers and Vendors is simple with Tech-Invoice as we bring both of them together.

- **Print Vouchers**

Don't Worry About the Never Ending Types of Vouchers. Our software's generates all from Quotations to Credit-Debit notes.

- **Barcode Generation**

Our Tech-Invoice software allows you to create your own barcodes and print stickers at the same time.

- **GSTR-1 Filing**

From Sales Upload to Purchase Reconciliation – Tech-Invoice makes monthly GST return filing painless.

- **Bulk Product Upload**

Uploading Client, Items/Products and HSN list is possible with one click with our Built in Excel Formats.

Technology Used:

- C#.NET, PostgreSQL.

Why TechInvoice - Billing Software is best?

- **Compatible:** Our software is designed to work perfectly with all versions of Windows, from XP to 10, so that you or your company can start invoicing quickly and efficiently without any compatibility concerns.
- **GST Ready:** We are updated for all your GST billing needs: GSTIN, HSN and SAC code support, GST formats for all documents from invoices to purchase orders and much more.
- **Surprisingly Affordable:** TechInvoice is launched by keeping in mind every group of businessmen from small to large and their spending abilities. Flexible payment options are available from monthly, quarterly, half-yearly and Yearly.
- **User-Friendly:** Software can be used by anyone with the basic knowledge of Computer and particular business. So training cost is absolutely zero.
- **Secure:** Since this is a Desktop Application, you do not need to worry about Internet Connectivity, Servers or Hackers. Your billing information is kept secure on your computer.

Results:

- From managing client relations, invoicing them, keeping track of payments, to knowing the receivables, Tech-Invoice has really helped the clients.
- Using a software makes a Tech impression on potential customers and software's being user friendly eliminates the software training cost.
